Due to instrumentation issues at Mayo Clinic Laboratories, results for NMOFC (Neuromyelitis Optica (NMO)/Aquaporin-4-IgG Fluorescence-Activated Cell Sorting (FACS) Assay, Spinal Fluid) will be delayed beyond the published turnaround time effective November 5, 2026. Results may take an additional 10-12 days to report, with an anticipated duration of 2–4 weeks for this testing disruption. The remaining components of this evaluation are not impacted. An update will be provided when normal testing operations resume.
