Due to instrumentation issues at Mayo Clinic Laboratories, results for AAGFS (Alpha-3 Beta-4 Ganglionic Neuronal Acetylcholine Receptor Binding Antibody, Flow Cytometry, Serum (Non-Orderable)) will be delayed beyond the published turnaround time effective November 5, 2026. Results may take an additional 10-14 days to report, with an anticipated duration of 4-6 weeks for this testing disruption. The remaining components of this evaluation are not impacted. An update will be provided when normal testing operations resume.
