NOTICE DATE: January 9, 2019

EFFECTIVE DATE: Immediately

TEST CHANGE

Myelodysplastic Syndrome (MDS), FISH
Order Code: MDSF
CPT Code: 88271 x multiple probes
Reference Laboratory: Mayo

Effective immediately, Mayo Laboratories has changed the Myelodysplastic Syndrome (MDS), FISH panel and it will no longer include 13q- (D13S319/LAMP1) or 11p15.4 rearrangement (NUP98) probes. Although these FISH probes remain available by individual request, the removal of the probes from the MDS panel was made to more closely align abnormalities detectable in the panel with those classifiable within the Revised International Prognostic Scoring System for MDS (IPSS-R) and current NCCN Clinical Practice Guidelines in Oncology for Myelodysplastic Syndromes.

EFFECTIVE DATE: January 15, 2019

TEST CHANGE

C2 Complement, Functional
Order Code: C2
CPT Code: 86161
Fee Code: 32063
Reflex CPT: C3 86160, C4 86160
Reference Laboratory: Mayo

Effective January 15, 2019, Mayo Laboratories will change the reflex testing on the C2 Complement, Functional, with Reflex, Serum test. C2 Complement, antigen, serum will be removed from the reflex algorithm.

ATTN: IMPORTANT TEST INFORMATION
TEST UPDATE 652

EFFECTIVE DATE: February 1, 2019

TEST OBsolete

Strychnine, Serum/ Plasma
Order Code: MMLR (STCH)
CPT Code: 80323
Fee Code: AA206
Reference Laboratory: Mayo

Effective February 1, 2019, Mayo Laboratories will no longer offer (STCH) Strychnine, Serum/Plasma testing. Testing will be referred to NMS Labs. The test is being discontinued at the performing laboratory. There are no recommended alternative tests.

EFFECTIVE DATE: February 4, 2019

TEST OBsolete

Myocardial Antibodies, Serum
Order Code: MCA
CPT Code: 86255 Screen, 86256 Titer
Fee Code: 20435
Reference Laboratory: Mayo

Effective February 4, 2019, Mayo Laboratories will no longer offer (MCA) Myocardial Antibodies, Serum testing. The recommended alternative testing is (STR) Striational (Striated Muscle) Antibodies, Serum.

Recommended Test:

Striational (Striated Muscle) Antibody
Order Code: STR
CPT Code: 83520
Fee Code: 30966
Reference Laboratory: Mayo

Offsite Collection Instructions: Collect a minimum of 1.0 mL of whole blood in a red top or serum separator tube. Centrifuge and aliquot the serum in to a plastic vial and refrigerate (preferred) or freeze.

Testing Methodology: Enzyme Immunoassay (EIA)

Reference Range: <1:120
