NOTICE DATE:        April 17, 2019

EFFECTIVE DATE:     Immediately

TEST OBSOLETE

Prostaglandin D2
Order Code:          MMLR
CPT Code:            84150
Reference Laboratory: Mayo Medical Laboratories

Effective April 11, 2019, MLabs will be discontinuing Prostaglandin D2 (MMLR) due to Mayo Medical Laboratories discontinuing the test. The new recommended test is Prostaglandin D2 (PGD2). See below for additional information.

Recommended Replacement Test

Prostaglandin D2 (PGD2)
Order Code:          MMLR
CPT Code:            84150
Reference Laboratory: Mayo Medical Laboratories

Collection Instructions: Please collect approximately 6 mL of whole blood in a red top tube or serum separator (SST) tube. Centrifuge and aliquot the serum in a plastic vial. The minimum volume of serum is 3 mL. Ship the specimen frozen. The specimen stability is 60 days frozen.

Reference Values: Adults 35-115 pg/mL; no pediatric range is available for this test.
