

INSURANCE LIST PARTICIPATING AND NON-PARTICIPATING CARRIERS

The following list applies only to laboratory services. For services referred by Michigan Medicine physicians or clinics, or for other than laboratory services, please contact Michigan Medicine at 855.855.0863 for assistance. Note that laboratory testing benefits, copays, referral and prior authorization requirements may vary by individual policy. The patient should check with his or her insurance provider for specific details regarding covered laboratory services and approved testing facilities. Michigan Medicine Laboratories (MLabs) service claims are billed as outpatient hospital services, which may be adjudicated differently than independent laboratory claims.
