

## **Test Update 770**

**Posted Date** 07/28/2021

**Effective Date** 07/26/2021

**Test Name** [Immunoglobulin G Index](#)

**Update Type** [Test Down or Delayed](#)

**CPT Code** 82784 x2, 82040, 82042

### **TEST CHANGE**

#### **Immunoglobulin G Index**

**Order Code:** GIN

**CPT Code:** 82784 x2, 82040, 82042

Effective July 26, 2021 MLabs will temporarily change the “Albumin, serum” portion of the Immunoglobulin G Index (GIN) assay from turbidmetric to colorimetric (Bromocresol Green) and the units for reporting will change from mg/dL to g/dL. The other three components to the assay, IgG serum, IgG CSF, and Albumin CSF will remain the same.
