

Test Update 841

Posted Date 04/26/2023

Effective Date 04/27/2023

Update Type [Test Discontinued](#)

DISCONTINUED PANELS

Autism/Intellectual Disability Panels

Order Codes: AUS1, AUS2, AUS3

CFTR Panel: Gene Sequencing with reflex to Del/Dup

Order Codes: CFT1S, CFT2S

The MMGL Molecular Genetics Laboratory will discontinue the Autism/Intellectual Disability Panel (Tiers 1, 2, and 3) and the Cystic Fibrosis (CFTR) Panel effective April 27, 2023. The panels are being discontinued due to the inability to obtain insurance prior authorizations for multiple genetic tests ordered simultaneously and to improve the ability to locate the test result for a particular panel component. **All components of these panels will remain available to be ordered individually:**

Test	Order Code
CFTR Panel	
CFTR Gene Sequencing	CFTRS
CFTR Deletion/Duplication Analysis	CFTD
Autism Panel Tier 1	
Chromosomal Microarray Analysis	SNPM1
Fragile X Syndrome Mutation	FRXFA
Prader-Willi/Angelman Syndrome Analysis	PWSMP

MECP2 (Rett Syndrome) Gene Sequencing MECS

MECP2 (Rett Syndrome) Deletion/Duplication Analysis MECD

PTEN Hamartoma Tumor Syndrome Gene Sequencing PTENS

PTEN Deletion/Duplication Analysis PTED

Autism Panel Tier 3

CDKL5 Gene Sequencing CDKL3

MBD5 Gene Sequencing MBD5S

NLGN3 Gene Sequencing NGLN3

NLGN4 Gene Sequencing NGLN4

SHANK2 Gene Sequencing SHNK2

SHANK3 Gene Sequencing SHNK3

SLC9A6 Gene Sequencing SLC9A

TCF4 Gene Sequencing TCF4S

UBE3A Gene Sequencing UBE3A
