

## **Test Update 850**

**Posted Date** 07/19/2023

**Effective Date** 08/01/2023

**Test Name** [Lactic Acid, Plasma](#)

**Update Type** [Reference range changed](#)

### **REFERENCE RANGE CHANGE**

#### **Lactic Acid, Plasma**

Order Code: LACT

Fee Code: 20734 (CPT 83605)

Effective August 1, 2023, the Michigan Medicine Core Laboratory and point of care testing locations will lower the upper limit of the reference range for Lactic Acid from 2.2 mmol/L to 2.0 mmol/L to harmonize with sepsis SEP-1/CMS guidelines requiring actions to be taken when Lactic Acid is greater than 2.0. All other reporting for Lactic Acid, including critical value limits, will remain the same.

Reference Range: 0.5 – 2.0 mmol/L
