

## [Test Update 862](#)

**Posted Date** 11/22/2023  
**Effective Date** 01/16/2024  
**Update Type** [Miscellaneous](#)  
**CPT Code** 86225

### **NEW ORDER CODE**

#### **Double-Stranded DNA (dsDNA) Antibodies, IgG (reflex)**

Order Code:           ADNAR  
Fee Code:             AA547 (CPT 86225)  
Reference Laboratory: Mayo ADNAR

New Order Code:     ADNA1  
New Reference Lab:   Mayo ADNA1

With the implementation of a new kit, Mayo Clinic Laboratories will replace potential reflex test ID ADNAR with test ID ADNA1 effective January 16, 2024. This test is a reflex test for Mayo Clinic Laboratories Connective Tissue Disease Cascade (order code CTDC). The reflex testing algorithm for CTDC will be updated as follows: If antinuclear antibodies are greater than or equal to 3.0 U, then antibodies to double-stranded DNA (dsDNA), extractable nuclear antigen evaluation, ribosome P, and centromere are performed at an additional charge.
