Test Update 876

Posted Date 05/08/2024
Effective Date 06/04/2024
Update Type Test Methodology Changed
CPT Code 86255 x15, 84182, 86341, 86053

Myelopathy, Autoimmune Evaluation, CSF

Order Code: MAC1

Fee Code: AA969, AA970, AA971, AA995 (CPT 86255 x15, 84182, 86341, 86053)

Reference Laboratory: Mayo MAC1

Effective June 4, 2024, the following updates will be made to Mayo Clinic Laboratories Myelopathy Autoimmune Evaluation, CSF, panel:

Additions:

- Test component Tripartite Motif-Containing Protein 46 (TRIM46) IgG, Tissue Immunofluorescence, CSF (test ID T46IC) (CPT 86255) will be added to the panel.
- Test component Dipeptidyl-Peptidase-Like Protein-6 (DPPX) Antibody, Cell Binding Assay, CSF (test ID DPPCC) (CPT 86255) will be added to the panel.
- Reflex test Tripartite Motif-Containing Protein 46 (TRIM46) IgG, Cell Binding Assay, CSF (test ID T46CC) (CPT 86255) will be performed automatically at an additional charge if indicated.
- Reflex test Tripartite Motif-Containing Protein 46 (TRIM46) IgG, Tissue Immunofluorescence Titer, CSF (test ID T46TC) (CPT 86256) will be performed automatically at an additional charge if indicated.

Deletions:

- Test component Dipeptidyl-Peptidase-Like Protein-6 (DPPX) Antibody, Immunofluorescence, CSF (test ID DPPIC) (CPT 86255) will be removed from the panel.

Note that DPPCC will become an always performed panel component instead of a potential reflex test.
