

Test Update 876

Posted Date 05/08/2024

Effective Date 05/30/2024

Update Type [Test Methodology Changed](#)

CPT Code 86255 x10, 86341, 86053

Pediatric Autoimmune Encephalopathy/CNS Disorder Evaluation, CSF

Order Code: PCDEC

Fee Code: AA977, AA978, AA997 (CPT 86255 x10, 86341, 86053)

Reference Laboratory: Mayo PCDEC

Effective June 4, 2024, the following updates will be made to Mayo Clinic Laboratories Pediatric Autoimmune Encephalopathy/CNS Disorder Evaluation, CSF, panel:

Additions:

- Test component AMPA-Receptor Antibody, Cell Binding Assay, CSF (test ID AMPCC) (CPT 86255)
- Test component Dipeptidyl-Peptidase-Like Protein-6 (DPPX) Antibody, Cell Binding Assay, CSF (test ID DPPCC) (CPT 86255) will be added to the panel.
- Reflex test AMPA-Receptor Antibody Titer Assay, Immunofluorescence, CSF (test ID AMPIC) (CPT 86256) will be performed automatically at an additional charge if indicated.

Deletions:

- Test component Dipeptidyl-Peptidase-Like Protein-6 (DPPX) Antibody, Immunofluorescence, CSF (test ID DPPIC) (CPT 86255) will be removed from the panel.

Note that DPPCC will become an always performed panel component instead of a potential reflex test.
