

Test Update 877

Posted Date 05/15/2024

Effective Date 05/14/2024

Test Name [Fragile X Syndrome Mutation](#)

Update Type [Test Methodology Changed](#)

CPT Code 81243, G0452-26

Fragile X Syndrome Mutation

Order Code: FRXFA

Fee Code: DA170 (CPT 81243, G0452-26)

Effective May 14, 2024, the MLabs MMGL Molecular Genetics Laboratory has modified their Fragile X testing methodology. The primary testing methodology for detection of FMR1 CGG repeats is unchanged. Secondary testing, if needed for the determination of the methylation status of FMR1 will be performed using Asuragen AmpliDeX mPCR FMR1 test kit; MMGL's laboratory developed test (bisulfite conversion followed by PCR) for FMR1 methylation detection is being retired.
