

Test Update 886

Posted Date 09/25/2024

Effective Date 09/26/2024

Update Type [Test Discontinued](#)

CPT Code 86148 x2

TEST DISCONTINUED

Phosphatidylserine/Prothrombin Antibody Panel (IgG and IgM)

Order Code: PSPT

Fee Code: 21612 (CPT 86148 x2)

Reference Laboratory: Mayo PSPT

Mayo Clinic Laboratories Phosphatidylserine/Prothrombin Antibody Panel (IgG and IgM) will be discontinued effective September 26, 2024. The recommended alternative test is the Phosphatidylserine/Prothrombin IgG Antibody assay (Mayo test ID PSPTG) (order code MMLR). Phosphatidylserine/Prothrombin Antibody IgG antibodies are more clinically relevant compared to the IgM isotype to assess the risk of thrombosis and anti-phospholipid syndrome.
