Effective Date 11/03/2025

Update Type [New Tests](#)

CPT Code 87506

NEW TEST

Mid Gastrointestinal Pathogen Panel

Order Code: MIDGI

Fee Code: LA047 (CPT 87506)

LOINC: 82195-9

Effective November 3, 2025, the MLabs Clinical Microbiology Laboratory will replace the BIOFIRE® FILMARRAY® Gastrointestinal (GI) Panel (22 targets) (order code GIPAN) with the BIOFIRE® FILMARRAY® Gastrointestinal (GI) Panel Mid (11 targets) (order code MIDGI) for testing of stool specimens for GI pathogens.

The GI Panel Mid offers a more focused panel that retains detection of the most clinically actionable gastrointestinal pathogens, with the following benefits:

- **Streamlined Target List:** Focuses on pathogens with the highest diagnostic and clinical relevance.
- **Improved Stewardship:** Reduces detection of organisms with unclear clinical significance.
- **Cost-Effective:** Offers value that is covered by more major insurance payors.

The GI Panel Mid includes a refined list of bacterial, viral, and parasitic pathogens as follows: Campylobacter, C. difficile Toxin A/B, Salmonella, Shiga-like toxin producing E. coli, Shigella/Enteroinvasive E. coli, Vibrio, Yersinia enterocolitica, Cryptosporidium, Cyclospora cayetanensis, Giardia lamblia, and Norovirus GI/GII.
