Test Update 940

Posted Date 01/28/2026
Effective Date 01/19/2026
Update Type Test Methodology Changed

METHODOLOGY CHANGE

NGS-based Panels and Single Genes

MLabs Molecular Genetics Laboratory has completed an extensive validation of an upgraded new platform. Effective January 19, 2026, methodology descriptions will change for all existing NGS-based panels and single genes to Whole Genome Sequencing. Orders and existing test codes will not change. The method summaries on patient reports and orderable test descriptions have been updated. If you have questions, please contact Client Services at 800.862.7284.
