MLABSCONNECT DOWNTIME NOTICE

Atlas Server Upgrade

The Pathology Atlas Production Server will be migrated from Windows 2016 to Windows 2022 on**Tuesday, March 31, from 7–8 AM** to maintain operating system support. This downtime will affect all MLabs clients using MLabsConnect.

During the downtime:

Traffic between the EMRs, MLabs, and Soft will stop.

Orders will not cross into MLabsConnect or Soft; any sent orders will queue and transmit after the downtime.

Results will not flow into MLabsConnect or downstream EMRs; any results will queue and transmit after the downtime. MLabs specimen labels will not print.
