Test Update 962

Posted Date 07/01/2026
Effective Date 06/25/2026
Test Name Zinc Transporter 8 (ZnT8) Antibody
Update Type New Tests
CPT Code 86341

NEW TEST

ZNT8 Antibodies

Order Code: EZNT8

Fee Code: AA634 (CPT 86341)

LOINC: 76651-9

Reference Laboratory: Mayo FZNT8 (Esoterix Endocrinology 503995)

New test ZNT8 Antibodies referred to Esoterix Endocrinology is available effective June 25, 2026, and will replace Mayo test ID EZNT8 Zinc Transporter 8 (ZnT8) Antibody, Serum (order code EZNT8) which will become obsolete effective July 16, 2026. This test detects zinc transporter 8 autoantibodies (ZnT8), an autoimmune diabetes marker that is instrumental in the diagnosis of new-onset type 1 diabetes.

Collection Instructions: Collect specimen in a red top (preferred) or SST tube. Centrifuge, aliquot 0.5 mL (minimum 0.2 mL) of serum into a plastic vial within 45 minutes of collection, and refrigerate.

Reference Range: All ages: less than 15: Negative; greater than or equal to 15: Positive.
