

CONSULTATION SERVICE

Anatomic and Hematopathology

MLabs Director **Jeffrey Myers M.D.**, joined the faculty of the University of Michigan in 2006. His areas of interest include pulmonary and general surgical pathology, patient safety and practice innovation. Dr. Myers is also the Vice Chair for Clinical Affairs and Quality, Interim Director for Anatomical Pathology and A. James French Professor of Diagnostic Pathology.

OUR COMMITMENT TO YOU

Thank you for considering Michigan Medicine Laboratories (MLabs) for pathology consultation.

MLabs combines the scientific rigor and infrastructure investment of a top academic research institution with the efficiency, flexibility and responsiveness of a private reference lab. Partnering with MLabs means gaining access to one of the largest, most productive pathology enterprises in academic medicine, with faculty equally passionate about both scientific discovery and service excellence.

Our sole focus is delivering world class pathology services to colleagues around the region and across the country. By making nationally recognized faculty and state-of-the-science technology easily accessible, we help you meet your practice's needs for on-time, accurate pathology results.

Bring us your biggest pathology challenge. We look forward to exceeding your expectations.

WE LOVE A CHALLENGE

At MLabs, we encourage our clients to challenge us with their most difficult, perplexing cases.

A passion for discovery and breakthrough science has been a hallmark of pathology at the University of Michigan for more than a century. Partnering with MLabs means tapping into that passion to answer your toughest questions.

We offer a full range of pathology services, including cutting edge molecular diagnostics, a large menu of immunohistochemistry stains, electron microscopy, digital imaging and more. Consultations and second opinions are communicated by fax and are often accompanied by a phone call to the referring pathologist to address questions and help prepare for conversations with providers and patients.

Challenge us. We will guide you to the right test and deliver comprehensive, actionable results, emphasizing collaboration and personal service every step of the way.
