This chart is a guide for patients only who are having a COVID test prior to a procedure. If there is no procedure, then this chart is not necessary. Example: Patient's procedure is scheduled for Wednesday, they would need to schedule a COVID collection on Saturday.

MORE INFO

QUESTIONS CALL 734.539.5111

PROCEDURAL TYPE

Nasopharyngeal collection or
Self Collected Mid-Nasal

Upon arrival, the collection personnel will verify your identity and perform specimen collection. The procedure takes roughly 30 seconds and is slightly uncomfortable.

BILLING & COVERAGE

Patient's insurance will be billed.
Uninsured patients will be tested
at no cost.

RESULTS AND TURNAROUND TIME

Once your specimen reaches our laboratory, the test results are typically reported within 24 to 48 hours. If you were referred by a dentist, physician or medical provider, they will receive your results directly. For all other referrals, please visit the patient portal for your results.

Results are also available through the MyUofMHealthPatient Portal. Visit myuofmhealth.org to sign up or log in.
